Schnucks® Automates Regional Pharmacy Scheduling with Staffing Angel Rx™

Midwest Retailer streamlines operations with Staffing Angel™

Managing the daily scheduling operations for over 100 Chain Pharmacies is a complex task...managing the process manually is daunting. The need to automate the scheduling process for hundreds of Pharmacists and Pharmacy technicians to ensure daily shift coverage for all stores led Schnucks® to choose Staffing Angel Rx™. The roll-out for 101 stores running daily scheduling operations on Staffing Angel RX™ was completed in March of 2008.

Bob Mueller, R.Ph., Director of Operations for Schnucks® Pharmacy explains:

"While we had in place a good process, we knew we could do more. We reviewed a number of applications, but never could find what we wanted...when we saw Staffing Angel™ we knew right away." "The process for launch was very straightforward and we were given a tremendous amount of support from the team at Staffing Angel™."

When asked to qualify specific feedback on the application, Mr. Mueller responded, *"In just 3 Months, Staffing Angel™ Rx has completely automated our scheduling and staffing processes. Our Pharmacists Love It! PRNs are picking twice as many shifts, reducing our OT and Agency costs."*

About HNS Software, LLC

Founded in 2000, HNS Software was formed with a vision to develop and harness the power of web-based applications to solve the age-old dilemma of taming the chaos of labor-management and staffing/scheduling. We are a nimble, customer-centric organization that does not subscribe to a "one-size-fits-all" approach to application development. Our applications achieve real-world results and are built to provide both immediate and long-term ROI. The Staffing Angel® suite of labor management applications currently serves a diverse group of customers within the healthcare delivery sector. Regardless of your organization's size, we have the application, but more importantly, the **expertise** to design a solution to fit your labor-management needs.
